“ I will never be able to forget my dad. I couldn't of asked for a better one. He was such an extremely caring and understanding person. He did everything he could to come watch me play sports all from elementary to high school, I always had fun going on camping trips every summer. He would always listen to me and give me the best advice he could, I know kids go through that stage where they get very upset at their parents but with him I just couldn't stay mad at him. Through my crazy partying stages, sometimes I called him and didn't know it til the next day when he told me. Haha. But the times I do he always said I know your going to do what you want it's part of growing up and learning but PLEASE call me tomorrow so I know your ok. I could keep going on and on about him, but to end it I couldn't of asked for such a GREAT dad and friend. RIP dad your no longer in pain and reunited with your mom & dad love you and will see you again one day

“ Roger and I grew up as close neighbors in Enid. We rode bikes, went fishing and just had a good time growing up. It seems that we were always into something, sometimes into some things that we'd wished we hadn't gotten into! We went through school together then split up and went to different colleges. Later, we went into the Navy together on a Buddy Program, along with my roommate from college. We volunteered for duty on the Swift boats on the rivers in Vietnam! As it turned out, the Buddy Program lasted only through boot camp, then they sent the three of us in vastly different directions! After our Navy lives were over, we both ended up back in Enid for awhile where we were able to get back together. We had each become married by then. It was nice to have another couple to have dinner with, go camping and fishing, and to play cards with. After a few years, my family and I moved away so Roger and I were once again split up. However, we were able to keep in touch periodically and whenever we visited, we always had a good time, reminiscing, laughing and just enjoying the time together. From the fifth grade on, we remained good friends, in fact, at one point when we were in grade school, we became "blood brothers". So, I mourn greatly, the passing of Roger, my blood brother and my friend for life!

“ To the family of Roger. I met Roger at Enid Workforce Center, I work with veterans. Roger was pleasant, easy to talk to and an all around good guy. We spent many sessions just talking about life. He became a friend. I will miss my friend. Such a kind and gentle person. RIP my friend.

“ I knew Roger's parents before I knew Roger. Found him to be a very likable guy, and he would do anything for anybody. Saw him many times at the grocery store buying groceries for someone and would always stop and talk and he visited often at my husband's business. He will be greatly missed. My condolences to the family.
