“ *Cammie was like the other half of my jigsaw piece... We just got each other and shared the same sense of humor. We'd never have to explain why we found something funny because we both would find it funny and often our conversations would end with both of us in tears from laughter. I'm honored to have had her as a best friend for the past 4 years.... And we interacted everyday whether it was online or by phone. She loved her husband Christopher more than words can express and she was very proud of her family. The sudden loss of her has also been hard on the club we created online and I want to also share that there are 12 other people out there who are grieving. Cammie aka HB (Hummingbird), will always be missed and not a day goes by that I don't think of her. I will always love you Cammie, and I will continue to keep in touch and look after Christopher the best that I can!! I'm so sorry we never got to meet in real life, I'd often joke that if there's a helicopter hovering above your house that someday I would propel down from it to surprise you. Now when I hear a helicopter I think about you above me. I have so much more to say but I just can't right now... I love you and I'll never ever forget you!* ”
