“ I met Mark in 1978 when joined theEPD. We were both in the traffic division. I have many memories of investigating collisions with him. He had that special sense of humor that I could relate to. I hunted and fished with him and we took our boats to the lake with our wives and had some great times. He was an inventor, engineer and artist. He was a crack shot with any firearm. In the past several years I wished I had spent more time with him. He was an uncommon person and will be sorely missed, rest in peace Mark. Roland Von Schritlz

“ Mark was the first sergeant I met as a rookie with the Enid Police Department. His humor and wit was so welcome during some rough times there. Running the police firing range with him was so entertaining and he taught me so much. As a friend, he was the best and he always had time to listen and a knack for making you feel better. I lost track of Mark the last few years and now I wish I could have been a better friend to him. Love you brother...Russ Wright
