“ Thank you for being such a wonderful and loving sister!

*I have so many cherished and fun memories of you growing up as my little sister in our incredible family. For instance, you being willing to sit in the middle of our back car seat. Also, how fearless you were with my pet baby raccoon, Rango, before he grew up and we released him in the woods next to the Red River. You were always ready to go with me for any neighborhood escapade.*

*Our dad, mom and now you, passed away too soon, but I was so fortunate to have a very deep and special bond with each of you.*

*Mary Kay, I will love and bless you forever!  
Your Brother*

*I was invited into this special friendship with Mary Kay and Glenn many years ago. While I moved away, I kept in touch with them both. My heart is broken that they are gone, but certainly never forgotten. They are both part of who I am and became. Rest well Mary Kay and Glenn.*
